If you are accepted into the Graduate Tax program and are enrolled at least half-time and meet other eligibility criteria, then you can be reviewed for financial aid. Four credits are usually required to be considered half-time and six or more credits are considered full-time status. Your financial aid package will be based on the number of credits taken and how many semesters you will be enrolled. If you drop or add classes after your eligibility has been determined, adjustments will be made to your loans.

Please list the number of Graduate Tax credits that you will be taking in the following semesters.
